

## **NITE TREK 2018**

### **STATION EQUIPMENT**

Each group is to bring the following and give to their station attendants to take to the station they are manning. There will be two shifts for stations and most/but not all patrol adults are paired together. We hope to be able to inform everyone before arriving at Nite Trek of what their duties will be during the Trek and who they will be paired with.

- Firewood (please bring your own)
- Matches, paper, kindling, hatchet
- Fire bucket
- Water
- Clip board and plastic to cover it – pens/pencils
- Lantern with extra mantels and propane
- Flashlight with extra batteries
- Camp stove & propane
- Hot chocolate, tea & cider
- Small first aid kit

Station attendants are able to make a small fire pit on the side of the trail at the station. Fire pits are to have a support ring of rocks around all fire pits and a fire bucket in place. All fire pits **MUST** be taken apart (fires extinguished, ashes distributed and rocks and debris removed from trail) at the end of the evening.
